

OPTICAL CHARACTER RECOGNITION

TOP 10

B E N E F I T S

As an organization, you regularly have to deal with the processing of incoming invoices. An optical character recognition software is an easy way to process these. Your mailboxes in which invoices come in are linked to your business environment. The scan and recognize software automatically downloads and scans the purchase invoice using OCR and identifies which invoice fields are relevant. Here are the top 10 benefits.

01

95%

Fewer lost invoices

02

70%

Time-saving thanks to automatic processing

03

24/7

Access for digital approval
